

Jones County Partners with RAI!

About our partnership

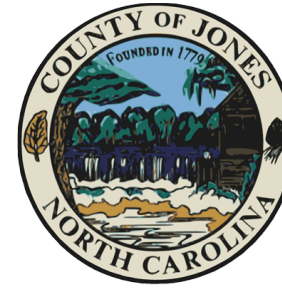

As a best practice, The Memorandum of Agreement (MOA) recommends that an outside facilitator be used in the strategic planning process.

**Jones County has chosen
RAI to lead its strategic planning for opioid
spending.**

RAI has extensive community and local level experience along with a deep network in the recovery community. In addition, RAI has worked with many of the stakeholders in the Eastern Region of our state as a part of RAI's Community Collaborative.

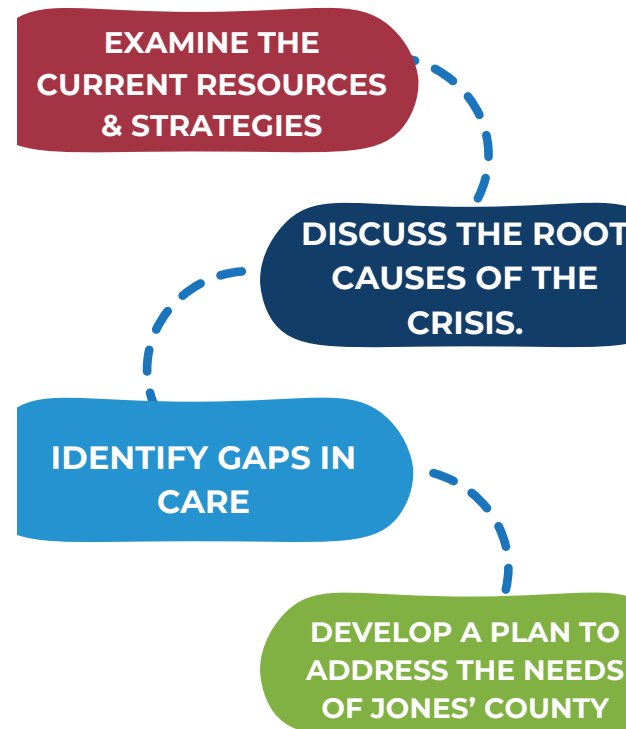

Jones County & RAI Partnership

project **GOAL**

Engage Jones County government and community stakeholders to develop a strategic plan to maximize flexibility and adapt the funds to resources & strategies which are targeted to Jones' specific needs related to the opioid crisis.

our **PROCESS**

the **OUTCOME**

Develop a Vision Statement for the County.

Increase positive outcomes.

Create a resilient community to address these challenges in the future.

Foster cross-sector collaboration with local community members, organizations, and government agencies

Jones County Visioning Process

In December 2024, the stakeholders were engaged in a visioning process with Recovery Alliance Initiative, led by Mariel Swiggard. The group collaboratively developed a vision statement for their strategic plan:

The Vision

Our vision for Jones County is that every individual and family has access to resources needed to achieve health and wellness to contribute to a thriving community overcoming the effects of substance use disorder and substance misuse.
